MOVEMENT CATALOGUE 2025-2026

ABOUT TMI

In 1987 we began our journey in Ginza, Tokyo, Japan as “Time Module Inc. (TMI)”. Since then, we have worked with our affiliated factories in designing, developing, and producing a diverse and innovative range of watch movements for clients across the global watch industry.

OUR STRENGTH:

A WHOLE INTEGRATED PRODUCTION SYSTEM

From research and design to our rigorous quality inspection, all aspects of the development and manufacturing of our movements are carefully managed through our group of companies.

This collaborative approach guarantees a consistent and stable supply of high-quality, cost-effective products that support your business, and the global watch market.

CARE FOR QUALITY CARE FOR NATURE

We pursue a better environment by removing the hazardous mercury and lead from all movements' batteries since 2008.

Mercury Free
0%Hg

NH34 Automatic GMT

What is the GMT watch function?

At its most basic and essential function, the GMT watch allows you to set an additional time zone on your watch. It has a second hour hand on the same watch face that's geared to rotate once every 24 hours, or half as fast as the other hour hand.

What does GMT stand for?

Greenwich Mean Time, known more commonly as GMT, is the mean, or average, solar time according to the Royal Observatory in Greenwich, London. The Prime Meridian at Greenwich is the reference for every time zone in the world.
